Why study Art abroad?

To compete in an ever-globalizing, competitive job market, no college education is complete without the skills and experiences that studying abroad can offer. International education and experiences bring academic variety and challenges, personal growth, and professional and networking opportunities to the table.

"Studying art in Italy opened my eyes to how interconnected art, history, and culture are. No where in the U.S. would I have had the opportunity to restore a 2,000 year old plate. It was an incredible experience!"

- Sina McLin, TU '19
