Study Abroad Programs Guide

Why study Nursing abroad?
To compete in an ever-globalizing, competitive job market, no college education is complete without the skills and experiences that studying abroad can offer. International education and experiences bring academic variety and challenges, personal growth, and professional and networking opportunities to the table.

"Much of the coursework at the University of Limerick has afforded me many one-of-a-kind opportunities. My midwifery courses cover specific topics I truly enjoyed learning about, such as the procedures for labor and delivery and even how to resuscitate an apneic infant. By practicing on the simulation robots, I had the chance to learn clinical skills that I wouldn’t have had the opportunity to learn for a while longer at TU."
- Natalie Ames, TU '20
