Why study English abroad?

To compete in an ever-globalizing, competitive job market, no college education is complete without the skills and experiences that studying abroad can offer. International education and experiences bring academic variety and challenges, personal growth, and professional and networking opportunities to the table.

"I'm glad that I studied abroad as an English major, because the classes at Queen Mary were set up so differently than classes in America. Instead of regular classes, we had an optional lecture once a week and smaller group discussions based off the week's lesson. I liked having that independence in my academics and being able to choose which classes I went to." - Gabby Brotherton, TU '17
